Description

Finished in arctic white with pacific blue upholstery, This 420 SL will have to be one of the best examples out there today. She was sold by us in 1998 to a local couple who cherished the car for many years. They then decided to emigrate to sunnier climes and the car was purchased by ourselves to which it has remained part of our collection for the last few years. The car has a full service record and has retained all of its original hand books etc. The car has just undergone a major recommissioning service including all new discs and pads, new exhaust, all of the parts fitted were genuine

Mercedes replacement parts.
